DETAILED ACTION

Claim Rejections - 35 USC § 103

1. Claims 4-7, 11-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Simmons in view of Huston et al or Wilhelm et al (#5,943,844). Simmons substantially show the claimed subject matter but do not show the shutter means being flush with the blade as claimed. Huston et al show a cutting blade 40 mounted on a holder means with the shutter means on the side of the blade. Wilhelm et al show a cutting blade 64 wherein the whole surface is being used to substantially block a path as claimed. It would have been obvious to one of ordinary skill in the art at the time of the invention to provide Simmons with cutting means as taught by Huston et al or Wilhelm to make sure nothing interferes with the cutting blade. Regarding the shutter surface being flush with the blade, Huston et al show a mechanical equivalent blade wherein the strip path is substantially blocked as claimed. Wilhelm et al show a blade means 64 wherein the surface of the blade blocks a strip path and the surface is flush. Wilhelm et al do not show a shutter means that is separate from the blade means; however, it has been held that the mere fact that a given structure is integral does not preclude its consisting of various elements. See Nerwin v. Erlichman, 168 USPQ 177, 179 (PTO Bd. Of Int. 1969). Furthermore, the blade means of Wilhelm et al performs the same function as applicant's blade and shutter and an integral workpiece is more efficient than having two separate workpieces as claimed.
2. Applicant's arguments with respect to claims supra have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3721

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
